

# Farhad Dehghani

## Backend Developer

With over 4 years of experience as a back-end developer specializing in **PHP** and MVC frameworks like **Laravel**, I excel in building robust web applications. I possess a strong understanding of how backend systems integrate with frontend technologies. I have foundational knowledge of **Linux** and plan to learn **Golang**, focusing on frameworks like Gin and ORMs such as GORM, to explore new technologies and develop innovative back-end solutions. Passionate about tackling challenging projects, I continuously strive to improve my expertise.
